ACS PRESCHOOL COME GROW WITH US.

Our PK program builds a strong foundation for Kindergarten through hands-on learning in core subjects each day. Children enjoy a balanced routine with free play, recess, rest time, and engaging specials like music, art, and gym. We partner with families to create a schedule that supports each child's needs and complements your routine. With our new Faith and Family initiative, we recognize that one size doesn't fit all—let us help design an education plan that works for your child and your family!
